

amcoss engineering components_

- // Variety of filters (e.g. I-line filter, G-line filter, sub-I-line filter, uniformity filter, gradient filter), lenses (e.g. condenser lenses, corrector lenses, input lenses, zoom lenses, fly's eye lenses) and mirrors for Canon, Nikon, ASML and Ultratech equipment
- // Wafer chucks for lithography, coating and other applications
- // Optical fibres either of glass or sapphire
- // Hotplates
- // Metal, plastic or ceramics precision parts
- // Wafer handlers, wafer end-effectors, dispense nozzles
- // Optical coatings, protective coatings preventing deterioration and corrosion

amcoss repair service_

- // Lamp house optics for G- and I-line steppers, scanners, and mask-aligners
- // Canon and Nikon shutters and motors
- // Canon stepper chucks and ASML wafer tables
- // Zygo and HP lasers
- // Robots and controllers
- // Spin-motors
- // Chillers
- // Reflector plates for RTP
- // UV-reflectors for curing and CVD
- // RTP bearings
- // Gold reflectors for EPI and RTP
- // EPI Centura
- // Lenses from Canon and Nikon
- // Spot cures / lamp houses
- // Calibration of pyrometers
- // Beamsplitters
- // Optical Isolators
- // Wafeplates
- // Calibration pins
- // Vacuum arms
- // Gold sleeves
- // Tempmatch calibration
- // Wafertec pumps
